Date: 2018/2019 School Year

Re: Asbestos Hazard Emergency Response Act

In accordance with the *Asbestos Hazard Emergency Response Act of 1987 (AHERA)*, Distinctive College Prep is notifying you that:

A comprehensive survey of the school facility was performed in accordance with Asbestos Hazard Emergency Response Act (AHERA). The original report was completed April 12, 2012. The purpose of the comprehensive survey was to identify, quantify and assess the Asbestos-Containing Building Materials (ACBM) present at this location. This Survey satisfies the Local Education Agency's (LEA) obligations regarding asbestos assessment in accordance with 40 CFR 763, AHERA.

After this inspection was performed, a comprehensive Management Plan was prepared in order to comply with the requirements of the Asbestos Hazard Emergency Response Act.

The Management Plans detail:

- 1) Inspection and re-inspection information and requirements
- 2) Response actions and post-response action activities

Surveillance inspections and re-inspections will be performed in this facility in accordance with AHERA.

The management plan is available to review at the school. We take all precautions necessary to keep your children and our staff safe. This notice is a requirement that we must share but please know we are in constant alignments to our management plans to ensure a safe and healthy school for our students and staff.

This notification must remain posted in the school office.

Thank you

Cassie Williams
Principal
